

New to the technical all-around category is a strap closure shoe we call the Luchador SC. Inspired by the inner wrestler in all of us who battle the medium of rock; it is built off a slightly cambered last with a semi-asymmetrical toe profile that allows for great control on small edges as well as thin cracks. Its new non-shifting tongue system also offers a sock-like fit.

- Synthetic upper with unlined leather footbed and arch
- Three strap hook-n-loop closure system for convenience and control
- New seamless elastic tongue system reduces bulk and bind while being more breathable
- Tensioned rands for power and performance

Profile / Slightly cambered semi-asymmetric

Upper / Synthetic leather (Synthratec) with leather footbed

Lining / Microfiber

Midsole / MX-P: 1 mm full-length

Sole / 4.2 mm TRAX® high friction rubber
