

Rock of Ages

Walk up to the Electric Avenue crag in Chek, then take the trail to the left of the route “Kye’s Stairway To Seven”, up through the hydro line clearing. Follow the trail up for 10 minutes to enjoy some of the most uniquely featured rock in Squamish. All routes have name plates written on rocks at the base. The crag has morning shade and dries quickly after rain. All the hardware for this crag was supplied by [The Sea To Sky Route Development Fund](#). If you enjoy new routes please make a donation to the fund and support the route developers who work hard establishing them.
